

ABSTRACT OF THE DISCLOSURE

**APPARATUS AND METHOD OF HIGHLIGHTING
LINKS IN A WEB PAGE**

5

An apparatus and method of highlighting links that are not clearly identifiable in a Web document are provided.

10 When the document is displayed, if the links are not clearly recognizable as such, the user may depress a button. Upon depressing the button, all the links embedded in the document will be highlighted. Here, highlighted is used to mean any manner that may be used to make the links clearly

15 recognizable as such.
